

RxCut[®] Plus Medicare Donut Hole Solution

The Free way to save up to 75% on your prescription medications

What is the Medicare Part D “donut hole”?

The Medicare Part D coverage gap, often referred to as a “donut hole”, is a period of the time during the coverage year (Jan. - Dec.) when Medicare recipients are responsible for paying all drug costs out-of-pocket.

RxCut[®] Plus helps fill the gap between coverage periods.

RxCut[®] Plus is dedicated to helping people caught in the Medicare Part D “donut hole” with their pharmacy needs by providing savings up to 75% on all FDA- approved medications at more than 54,000 pharmacies, including all major chains.

Have you reached the “donut hole”?

Simply use your RxCut[®] Plus card when you reach the “donut hole” and continue until catastrophic coverage kicks in.

Are your prescribed medications that are not covered by Medicare?

With the RxCut[®] Plus card, there are no limited drug lists. You can receive discounts on the drug that works best for you.

Register the RxCut[®] Plus card as your secondary payer for the best possible price.

Getting the best possible price on prescriptions is easy after you’ve registered your RxCut[®] Plus card as a secondary payer. Ask your pharmacist, “What’s my RxCut[®] price?”

| Standard Medicare Part D Benefit 2011 | What Program to Use |
|--|--|
